

Dear Students,

In accordance with Ministry of Health guidelines, the Corona virus keeps us apart from one another: We must keep a distance of two meters, not shake hands, avoid gatherings, self-isolate, and not come to campus. The keywords of this time are alone and distant.

As we of course abide by these guidelines at Tel Aviv University, we have decided to do everything in our power to be here for you, and to maintain University curriculum and schedules even if it means learning from a distance.

**Distance learning:**

- All TAU lecturers have enlisted to continue teaching through online tools.
- Computing and pedagogical support teams are working around the clock to provide quality learning solutions—a novel task that the entire world is now facing simultaneously.
- In order to learn from you and continuously improve your TAU distance learning experience, we invite you to contact your department or faculty office with comments and suggestions.

**Libraries:**

All university libraries are available to you via email, Whatsapp, and library websites even as they are physically closed. Library staff will help you with remote access to digital resources, locating articles and online books, providing articles from other libraries, and using quotation management software:
